

I absolutely oppose any relaxation of current indecency limits. I do not use the word 'standard' because there doesn't seem to be one anymore. The networks and cable stations are allowed to push the boundaries, using profanity, freely using the name of God as a curse word without any penalty and it is flat wrong.

I have to so closely monitor what is on in my home, because I have seen and heard partial nudity and cursing using the Lord's name just in flipping through the channels!!!!!! It's a disgrace! We wonder why our children go off in school and shoot other people, and rape and kill children? They see it on the TV glorified in TV shows, news broadcasts, and it is pretty much marketed as 'the way things are now' 'the new normal'.

I hate it and as a taxpayer and citizen I DEMAND YOU EXERCISE THE RIGHT TO CLEAN UP THE AIRWAVES. The standards were there years ago to prevent gratuitous violence and cursing and nudity on TV. My husband was watching Survivorman and this guy is naked jumping in a lake. Who needs to see that? I was just walking through the house and met with that unwanted sight! It's wrong! We need to protect our children. You should not only refuse to relax standards but roll them back to where families could watch programming without fearing what was coming in the next few seconds!
